CORPORATE FACILITIES

The Warren has some of the most sophisticated and up-to-date meeting rooms and conference facilities in the whole of South East London. We cater for requirements from small meeting rooms to conferences of up to 300 people.

Time and again our events management team cater for our clients regular and new, and help them to ensure they get exactly what they require from our amazing location.

So much so, that we have recognised the need to provide a facility especially for our Business clients, from small local businesses to larger corporates.

All sized businesses can take advantage of any of our four meeting rooms, with Wi-Fi, projector, smart screens and boards, stationery and flip charts, hearing loops (for selected rooms).

For larger events we can set up theatre style rooms for around 100 – 120 delegates including lunch.

For the large conferences we can set up our Coney Suite for 300 delegates, seating in a theatre style arrangement, with bespoke packages to suit.

Naturally, you will want to find out more and as always you will find our team more than willing to help. Why not give them a call now, our regular business users are always welcome back!
