

This style of service has become increasingly popular in recent years. It is less formal than a banqueting style meal, yet more formal than a buffet. If you are envisioning a casual yet chic and comfortable ambiance at your reception a plated buffet style would be ideal.

When choosing this buffet for your function you can also add items or replace items as required. This buffet option is available for a minimum of 25 guests.

You will be guided to the buffet tables where our waiting staff will serve to you your choices of food.

For weddings it is customary for the top table to be waited on at their own table.
